Dr. Miles' Nerve Restores Health.

U NOLE EZEKIEL OBEAR, assessor and tax collector, Beverly, Mass., who has passed the 80th life mile stone, says: "Dr. Miles' Restorative Nerve has done a great deal of good. I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and used up in the morning, had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nerve, and I purchased a bottle under protest as I had tried so many remedies unsuccessfully. I thought it no use. But it gave me restful sleep, a good appetite and restored me to energetic health. It is a grand good medicine, and I will gladly write anyone inquiring, full particulars of my satisfactory experience."

## THE MODUS VIVENDI

Believed That England and America Will Be Unable to Agree.

## THE STATE DEPARTMENT

Refuses to Make Public Mr. Choate's Latest Instructions - Not Known Whether Arbitration Will Be Reported To Committee of Isthmian Canal Commission to Go to Paris.

Washington, July 8.—Following the rule governing diplomatic exchanges, the state department absolutely refuses to make public the latest instructions sent to Mr. Choate respecting the modus vivendi. However, it can be stated that they do not contemplate any abatement in the claims of the United States as to the territory to be included in the provisional boundary line, and generally they look to a persistence in the original position on that part.

It is the belief now that the two governments have come to a point where it must be admitted that their present representatives must abandon their efforts to agree themselves upon a boundary line, even though the latter be but temporary and subject to correction by subsequent negotiation. Whether or not arbitration will be the dernier resort cannot be foretold; at present that means has not been offered in such shape as to be acceptable to our own government, and it is feared that the effort to arrange the limitations of an arbitration would be beset with as grave difficulties as those in the way of direct negotiation.

## ISTHMIAN CANAL

Commission Will Send the Panama Committee to Paris.

Washington, July 8.—The Isthmian canal commission has decided to send the Panama committee to Paris, probably early in July. This will include Colonel Ernst and Messrs. Burr and Morrison. Admiral Walker, who is a member of all the committees, probably will accompany them, as well as one or two members from the committee on commercial and political features. Professors Haupt and Johnson and ex-Senator Pasco are members of this committee. While it is expected that the members of this commission who are not on the Paris detail would go south late this month there has been so much talk of sickness on the isthmus that the start may be delayed until late in the autumn.

## YELLOW FEVER VICTIM

Chief of Commissary Heatwole Dies at Santiago.

Washington, July 8.—Major Joseph H. Heatwole, chief of commissary on the staff of General Leonard Wood, at Santiago, is dead at Santiago of yellow fever. He was appointed from Goshen, Ind., at the request of his brother, Representative Heatwole of Minnesota.

Early in the war Major Heatwole was appointed a major and commissary officer of volunteers. He proved such a competent officer that he was among those who were retained when the department mustered out a number of volunteer staff officers. He was made chief commissary of the department of Santiago, and was one of the most efficient officers upon General Wood's staff.

## GENERAL WHEELER WILL NOT RESIGN.

Washington, July 8.—General Joseph Wheeler will leave the city so as to sail from San Francisco on the Tarter July 20. He will not resign his seat in congress, it is understood, even if he remains in the Philippines all winter. Should General Wheeler survive the campaign he will seek the Democratic nomination for governor of Alabama next year.

## Children are sometimes told, when they are bad, that ghosts and other dreadful things will get them. Grown-up people know better, but it would be a good thing if women could be made to understand that terrible results will follow neglect of any ailment that comes upon them.

"female troubles." A pain in the side, or back, a disagreeable drain, a bearing-down sensation, headache, nervousness, weakness in the distinctly feminine organs, bad complexion and loss of flesh are forerunners of final collapse. Dr. Pierce's Favorite Prescription is a specific for weak women. It cures. In a great majority of cases the patient can treat herself at home, and obnoxious local examinations can be avoided. In a few bad cases it is wise for the sufferers to write to Dr. R. V. Pierce himself, at Buffalo, N. Y., and he will give full advice by mail free. He is consulted daily by great numbers of women throughout the world, and his advice is founded upon wide-spread experience. All correspondence is treated by him as sacredly confidential. His "Favorite Prescription" is non-alcoholic, and does not create a craving for strong drink. It contains no opium or other narcotic. It is perfectly harmless in any condition of the system. No medicine is equal to it in any respect for diseases of women. Therefore, accept no substitute for this world-famed remedy, though it be urged upon you as being "just as good."

Mrs. Mary E. Jones, of 329 Madison Avenue, Ypsilanti, Mich., writes: "I was troubled with female weakness, and after taking three bottles of Dr. Pierce's Favorite Prescription I am free from pain. I had suffered for two years when I began taking your medicine. I could not walk across my room without suffering dreadful pains. Now I do all my household work and walk freely."

Constipation and biliousness are radically cured by Dr. Pierce's Pleasant Pellets. They don't gripe; they never fail.

## O'Reilly's Report.

Washington, July 8.—Surgeon General Sternberg yesterday received a cable from Major O'Reilly at Havana, saying: "Armstrong reports two deaths from yellow fever at Puerto Principe. He has made all necessary recommendations. He reports having sufficient force for any immediate exigency." Another cable says the surgeon at Manzanillo reports two more cases of yellow fever.

## Dr. Foxworthy.

Washington, July 8.—The appointment of Dr. F. W. Foxworthy, late assistant surgeon of the One Hundred and Sixtieth Indiana regiment, to be an assistant surgeon in the Philippine army, with the rank of captain, was announced late yesterday afternoon at the war department.

## No Word From Otis.

Washington, July 8.—Adjutant General Corbin says that no word has been had from General Otis for the past two days, whence it is inferred that there has been no fighting and no change in the Filipino situation worthy of report.

## DOLLAR DINNER

Banquet of Young Men's Democratic Club at Columbus.

Columbus, O., July 8.—About 1,000 people attended the dollar dinner given by the Young Men's Democratic club of Columbus in the Auditorium last night. It was the largest banquet which the local Democracy has had since that given in honor of the 77th birthday of the late Judge Allen G. Thurman in the same hall 10 years ago. The affair was strictly Democratic in its simplicity, all classes being represented. There were also a large number of ladies in the assemblage.

The chief guest was Colonel William Jennings Bryan, at the table with whom were seated C. T. Callahan and George Fred Williams of Massachusetts, Judge Tarvin of Kentucky, Hon. Allen W. Thurman of Columbus, the toastmaster, and others prominent in state politics.

Christopher T. Callahan of Massachusetts, responded to the toast "The Issue," and dwelt particularly upon imperialism, trusts and free silver as the leading issues in 1900; Judge Tarvin of Kentucky, to "Party and Principles;" Colonel Bryan to "Democracy;" and George Fred Williams to "The Eastern Democrats."

## Ohio Democratic Clubs.

Columbus, July 8.—The Ohio Association of Democratic clubs was organized yesterday with General E. B. Finley of Bucyrus as permanent chairman and Charles L. Swain of Cincinnati secretary. The resolutions adopted reaffirm allegiance to the Chicago platform, and "demand the re-nomination of that fearless champion of the democracy and the peoples' rights, William Jennings Bryan."

## GENERAL ALGER

Denies That There Is a Combination Between Him and Pingree.

New York, July 8.—The Times today prints the following: "Before his departure from the city yesterday Secretary of War Alger had a word to say about the contest for the Michigan United States senatorship. He denied in the most positive manner the existence of any political combination between Governor Pingree and himself. 'There can be,' he said, 'no political combination between Pingree and myself, because it would be impossible for me, while a member of the cabinet, to form one with anybody who is not in perfect accord with the president's policy, and Governor Pingree is known not to be. I heartily favor the president's policy, and have no intention of resigning from the cabinet.'"

"Mr. Alger added he had told Pingree and his friends that he was not a candidate for the senatorship in the sense of seeking the place at the hands of the legislature and that he would not put money into the campaign."

## NEW NEGRO INSTITUTION

Scientific and Ethnological Academy of the United States Founded.

Atlanta, July 8.—After a session lasting three days prominent negro churchmen of the south and their brethren of the north have formed an institution to be known as the Scientific and Ethnological Academy of the United States. The object of the society is the perpetuation of the negro scholarship, and the principal requirement for admission is an education and a good moral character. Bishop Turner was elected president. Among the vice presidents are Professor W. S. Scarborough, Wilberforce, O.; Bishop Alex. Walters, Jersey City; Rev. R. C. Ransom, D.D., Chicago.

## Wants \$100,000 For Being Boycotted

Chicago, July 8.—For alleged boycotting and blacklisting George Hinchliff, a brick manufacturer, has instituted suit for \$100,000 damages against the Chicago Masons and Builders' association and a number of the largest brick manufacturers here. He claims his business is ruined because he refused to join the brick trust.

## FEVER AT SANTIAGO

Four New Cases and Two Deaths Are Officially Reported.

## BEST HOTELS INFECTED

Situation at Camp Boniato Reported to Be Serious—Dangerous Element at Camp Morro That Is Difficult to Control—Influx of Cuban Soldiers Expected.

Santiago de Cuba, July 8.—Four new cases of yellow fever, all in the city of Santiago, were officially reported yesterday. Two deaths were reported. No official report was received from Boniato camp, but it is known the situation there is serious. The two principal hotels of the city are now infected. The camp on the Morro road is so far healthy, but a dangerous element, very difficult to control, exists in the presence of numerous American adventurers, who are usually hard drinkers and refuse to respect the health regulations. Up to date 132 cases have been reported and 27 deaths.

Many Cuban soldiers are arriving to share in the distribution of the American gratuity, not knowing of the postponement of the date of payment. It is estimated there will be no fewer than 11,000 here next week. Of this large number comparatively few will have means of support, and the officials are considering how to furnish them subsistence.

Payment is progressing satisfactorily in the east end of the province.

## HAVANA TEACHERS

General Brooke Orders Arrears of Salary Paid.

Havana, July 8.—The former penal code provided that robbery of churches should be punishable under two heads, theft and sacrilege. The reformed code suppresses the classification of sacrilege. Mr. Santander, bishop of Havana, contends that this modification is prejudicial to the interests of the church, and has made a formal protest to the governor general.

General Brooke has issued a decree appropriating \$300,000 in settlement of arrears of salary in the educational department. Many of the schoolmasters have gone without pay since January. Hereafter \$50,000 will be appropriated monthly. The local press is unanimous in applauding this act, as it is the first time in years anything like regularity of payment has been attempted in this direction.

## ADMIRAL CERVERA

Tried by Courtmartial and Acquitted For Results at Santiago.

Madrid, July 8.—Admiral Cervera and the other commanders of the Spanish fleet destroyed in the battle of Santiago, whose conduct has been the subject of inquiry by special courtmartial, were yesterday acquitted and formally liberated.

## BRAZOS FALLING

Situation in Texas Flooded District Said to Be Rapidly Improving.

Galveston, July 8.—The situation in the Brazos valley is rapidly improving. The river is falling. There is a rumor that five lives were lost near Sartaria in Fort Bend county, but the rumor lacks confirmation. The report sent out from Brookshire that two lives were lost there now appears to be an error. Those supposed to have been drowned persist in making their reappearance. Relief committees are now well organized. This flood is the most terrible that has ever been known in this state. In fact it looks as if there had been a perfect waterspout. One witness says the flood came in a wave that was nearly six feet high.

At Brookshire the relief committee has opened a commissary and issues a half ration per capita. They have taken precaution so that only the deserving shall get these rations, and, therefore, they issue to the planter for all the tenants he had when the flood came. Those who owned their own farms and lost everything, as is the case with most of them, are allowed to draw their rations direct.

D. S. Cagle, a prominent citizen at Brookshire, thinks it is not too late to plant cotton and he has ordered a carload of cottonseed, which he proposes to give to all who will plant and undertake to cultivate the crop. He says, moreover, that crops of cotton, sorghum, kafir corn, June corn and potatoes can be raised now if these people had the seed, but they have neither seed or money, and he suggests that contributions of seeds would help them.

These crops would enable them to live until the beginning of next year, when they would be able to draw supplies from the merchant from the prospective crop. If the people do not attempt to raise another crop this year Mr. Cagle does not see anything ahead but starvation. There are rations enough at Brookshire to last for a week or more. Along the Brazos alone it is estimated that more than 10,000 negroes have lost everything. The loss by drowned horses, mules and cattle is something enormous.

## PAY DAY LAW

Workmen Complain That It Is Violated by a Terre Haute Company.

Terre Haute, Ind., July 8.—The employees of the carworks have made complaint to Prosecutor Beal that the American Car and Foundry company is violating the state law requiring weekly pay days. The manager of the works says the company is paying semimonthly by permission of the state labor commissioners, which can be granted by that board on petition of the men. The claim is made that it is impossible to make up the payrolls every week, and for that reason one week's wages is always held back until the employees quit the service of the company. The manager denied that a reduction of 8 cents on the dollar was made when an employee quits before pay day. That had been the practice, however, before the works passed to the control of the trust.

## GASOLINE EXPLODED

Dublin Teacher Fatally Burned While Cleaning Ribbon.

Dublin, Ind., July 8.—Miss Fanny Clark, a teacher in the schools here, was fatally burned yesterday at her home. She was cleaning a strip of ribbon with gasoline when an explosion occurred, and her clothing became ignited. She was fearfully burned on the face, neck and chest. Miss Clark was 25 years old, and a graduate of the state university.

Detroit, July 8.—Bishop B. W. Arnett, colored, presided over tent Endeavor meeting. Rev. Dr. Quayle of Indianapolis, one of the speakers of the evening, was announced to have been called to Kansas to the bedside of his dying father. Silent prayer was offered in behalf of Dr. Quayle. The devotional exercises were led by R. R. Patterson of San Francisco; the moments of meditation and prayer by Rev. George E. Soper of St. Paul.

The meeting in tent Williston took the form of a memorial service. Eulogies were delivered upon the life and character of Gladstone, Francis E. Willard and George Mueller. Dr. Clark presided, and the devotional exercises were conducted by Rev. E. D. W. Jones of Allegheny, Pa.

## BRADSTREET TALKS

Gives Condition of Trade and Prospects For Future.

New York, July 8.—Bradstreet's today says: Holiday observances and semiannual stock takings have worked toward quiet in general trade and industry, but it is significant of the favorable conditions ruling in this as compared with previous years that trade advances point to rather more than the average business being done, notwithstanding the checks to demand and shipment above mentioned. Additional results of the season's work brought to light are fully as favorable as those indicated in Bradstreet's report last week and furnish an adequate basis for the general air of confidence with which the business world faces later half of the year.

Bank clearings returns fully bear out estimates given last week, pointed to unprecedented totals and enormous gains for the six months period over preceding years, while Bradstreet's report as to prices points to a steady strengthening of quotations of staples and exceptionally few decreases in prices registered in June.

All indications favor a total of export trade little below that of last year's phenomenal total, what little falling off there has been shown being due to reduced European takings of American food products. Preliminary reports as to railroad gross earnings indicate exceptionally good showings for the monthly and half yearly period; the gains, in fact, being the heaviest reported this year.

Distributive business on reasonable account is naturally on a small scale, but orders for fall delivery are reported particularly liberal and making favorable comparisons with last year.

In the iron trade the strength of prices and demand is still the most notable feature, further advances in pig iron being notable this week, quotations for Bessemer iron going well above the \$30 mark. The question of supplies of raw and partly manufactured material is receiving increased attention, and delays growing out of inadequate supplies are becoming increasingly numerous.

Another strong situation is found in the woolen trade. Prices of the better grades have been advanced this week on active demand from dealers and manufacturers and in sympathy with the advance at London. The manufactured product is strong and the new season opens well. Cotton has strengthened quite considerably owing to very heavy rains, culminating in disastrous floods in Texas.

The wheat market has moved within a narrow range this week, weather conditions furnishing the basis for most of the changes shown. Rather more strength is noted in lumber and the same is true of leather, particularly calfskins. Sugar has sympathized with tendencies of foreign markets in which speculative activity has figured conspicuously. The extension of the guarantee period on refined grades give color to earlier reports that competition will not be specially bitter during the canning season.

## KENTUCKY FEUDISTS

Cause a Stir Among State Officers at Frankfort.

Frankfort, Ky., July 8.—The Clay county feudists caused another stir among the state officers yesterday. As a result troops were ordered to Manchester for the second time within a few days, and again the order was revoked. The commotion was caused by a rumor that hostilities had been resumed at Manchester and that several persons had been killed. Later it was found the reports originated from the shooting at Manchester of Deputy Sheriff Stubblefield by Mart Smith, said to be a Baker follower, whom he was trying to arrest. Stubblefield will die. Smith has escaped, but a posse is pursuing him. He is a desperate fellow, just returned from the penitentiary for shooting his stepfather

## A Faithful Assistant

AT YOUR ELBOW IN TIME OF NEED—ALWAYS A FRIENDLY AND SUBSTANTIAL SUPPORT.

Only the housewife, who has a family to look after, the household duties to perform, the servants to direct, the planning of the meals, the marketing, and a hundred and one other things to occupy her mind and demand her attention during the day, knows what a terrible strain all this is on mind and body, and what an immense amount of energy and vitality a successful performance of these duties require. Is it any wonder, then, that many good wives have more work to do than they have strength to perform? They find it impossible to give their household the attention that it should have. They must have assistance, and

The opening of public schools in the Philippines by the United States officers is in accordance with our western ideas. It is the surest way to make the Filipinos capable of self government.

The country approves the order for an increase of the army in the Philippines. Sufficient force should be sent as soon as the rainy season is over to put an end effectually to the insurrection and restore peace to the islands.

The comptroller of the currency states that while the country is doing an immense amount of business, still it is a conservative business. Yet he warns against the danger of running into speculation which is always the temptation in prosperous times.

Over a million dollars of American manufactured goods being sold every day to foreign customers indicates that our markets are expanding. The largest demands are from the most civilized countries, where nothing but the best is satisfactory.

JOHN R. McLEAN is a full-fledged candidate for the democratic nomination for governor of Ohio. Of course he does not expect to win in the election, but hopes to use it as a lever for a place on the democratic national ticket next year. He wants the first place, but will not decline an opportunity to be a running mate for Bryan.

The world evidently does not run to suit the poor old Banner at Brownstown. For the past three or four months, in fact ever since the fusion ticket was elected, the poor thing has been soured on the world, and especially on what has happened to Seymour. Everything that could be twisted to the disadvantage of this city has been so distorted. But the people of Jackson county are too intelligent not to see the animus of these petty attacks by the Banner, and that paper may expect them to reward it accordingly.

### An Advertising Genius.

None of the gifts of the late Robert Bonner was more striking than his insight into the value of certain results of newspaper advertising. He grasped the fact that the attention and appreciation of the world can be commanded by a liberal and constant appeal to its taste and judgment. He presented an article of merit and kept it constantly before the public. Bonner's success was the triumph of this idea. He believed that he could spend a great deal of money in advertising and that it would return threefold and fourfold. He made no mistake in this opinion. It is estimated that he spent \$250,000 in advertising and that he left an estate worth \$15,000,000. Bonner was a printer and came into possession of a small trade paper whose existence was known to few. He changed into a literary weekly adapted to the popular demand and advertised it into a circulation of 400,000.

### Grain-O Brings Relief.

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. Grain-O makes one sick, weary and restless. Dr. Miles' Restorative Nerve brings rest.

### TO BE SOLD MONDAY.

The B. & O. S-W. Will Be Offered at Receivers Sale.

At Cincinnati on Monday Master Commissioner Cowan will sell at foreclosure sale the Baltimore and Ohio Southwestern road. The receivership has been a short one, having been in force only since a few days prior to the first of last January. The property will be bid in by the reorganization committee. The Baltimore and Ohio company will own the property through the common stock as it has heretofore.

The old Ohio and Mississippi road, extending from Cincinnati to St. Louis, and known as the Mississippi division of the Baltimore and Ohio Southwestern has gone through several receiverships. The Ohio and Mississippi was absorbed by the Baltimore and Ohio Southwestern about five or six years ago, and the common stock of the consolidated lines was taken by the Baltimore and Ohio Railway Company, which gave the Baltimore and Ohio control of the property. The Baltimore and Ohio also guaranteed the bonds of the consolidated lines, principal and interest.

Clerk and Sheriff to Furnish Statistics.

The State board of statistics is about to enter on the new field of work created for it by the last legislature, which empowered it to collect civil, criminal and social statistics. Heretofore its work has been mainly in an industrial line.

Blanks have been prepared to be sent out to sheriffs and county clerks. Under the law passed this year, if the officer does not reply to the questions within thirty days the chief of the bureau of statistics shall bring suit in which the state shall be plaintiff, to collect \$100 from the officer, the money to be turned into the school fund of the state. The sweeping penalty provision will doubtless bring quick responses to the requests for information.

The sheriffs must give detailed information of all the prisoners in their charge during the year ending June 30, 1899, and the crimes with which they were charged. The county clerks must answer two long lists of questions concerning divorces granted and the causes, persons brought to trial and the disposition of their cases, persons naturalized, etc. The questions cover the year ending June 30, 1899, and the information obtained will form the most interesting part of the report of the bureau next year.

### May Stop at Linton.

The Terre Haute Express states that the Southern Indiana extension may not be made beyond Linton. It quotes a railroad man as saying:

"I am of the opinion that the Southern Indiana railroad will not extend its tracks in the direction of this city, but that it will make Linton the western terminus of the line. The management of the Southern Indiana and the of the Illinois Central are very close together, and now that the latter road has secured possession of the Ind. & Ill. Southern, and the Southern Indiana road will have a direct road to Chicago via the I. & I. S. and the I. C., this is all the Southern Indiana desires, for the president, John R. Walsh, has extensive coal lands along the line of his road which he is about to develop and the product of which he will market in the Illinois city."

### Begging Letters For the Rich.

A lady living less than a day's journey from New York had the curiosity the other day to make certain calculations in order to see how large a part of her property she would have had to sacrifice had she granted all the requests made for money within a period of 42 days. She kept all the begging letters received during that time, added together the amounts they asked for and then discovered that had she granted each individual request for money she would have disbursed \$1,600,000. And this, be it remembered, in a short period of six weeks.—Harper's Bazar.

## WITH A SHOT GUN.

### Fred Miller, of Vallonia, Shoots at His Step-Mother

This morning the trouble between Fred Miller, of Vallonia, and his step-mother, the widow of the late Jackson Miller, reached a climax. When Mr. Miller died he willed most of his property to his widow. This arrangement did not suit the son and he and his step-mother have been having more or less trouble ever since. This morning he secured a double-barreled breech-loading shot gun and went to the house. The first shot he attempted to fire was at close range, but the shell failed to explode. Mrs. Miller ran for her life and the shot which he then fired, missed her.

Miller was taken before a justice of the peace at Vallonia and was bound over to circuit court in \$3,000 bond. This he failed to give and he was taken to Brownstown and placed in the county jail.

## WINE OF CARDUI

### A LITTLE DOES MUCH.

BOOKS, IOWA, Dec. 14.  
No tongue can tell what I have endured in the past ten years with my monthly sickness. While suffering untold agony, a friend called and recommended Wine of Cardui. I sent for a bottle, and Oh! what relief. After the first dose I began to feel better and have had no more pain since.

## Wine of Cardui

Wine of Cardui not only cures but it acts AT ONCE. Here is a case of ten years' standing, and yet one single dose made the sufferer feel better, and stopped the pain. The Wine goes straight to the seat of the trouble. It acts directly upon the menstrual and genital organs. Its action is not violent, and it does not force a result. It simply gives Nature that little assistance that the sufferer's system lacks. A single disorder in the feminine organs spreads many disorders all over the body, and when the Wine cures the source, all the other ills vanish as a matter of course. A woman can be her own physician and cure herself at home. Local examinations are largely things of the past—the obnoxious custom is no longer necessary. Wine of Cardui is the only perfectly safe and sure vegetable Wine made to-day for the cure of "female troubles".

## The Barefooted Boy.

A medical Journal makes this plea for the barefooted boy or girl: Let your children run barefoot when the warm weather comes. It will do them lots of good, and they will enjoy it immensely. You don't have to be poor to do this, nor fortunately, do you have to be rich. There is something about the electric currents of the earth that strengthens and nourishes man. Get the bare feet of the children on the ground, and get the sunlight on their skin. This is the best of all summer tonics.

## This Man Believes in It.

The biggest advertising contract made in many years with a single newspaper is the one just closed between Wanamaker and the Philadelphia Record, which is for a whole year for \$100,000. Wanamaker knows how he made his money, and he follows up his old time policy of advertising. The policy adopted by Wanamaker is one that should commend itself to business men everywhere.

## The Canada Thistle.

The law in Indiana against the Canada thistle is as follows:

"Any person or persons who shall knowingly allow Canada thistle or thistles to grow and mature, or shall allow any Canada thistle or thistles to grow until they or any of them become of the length of four inches, measuring from the surface of the soil to the end or tip of the stem above the surface of the ground, upon his, her or their land or upon any land which they may have under their charge or control, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined, for the first offense, in any sum not more than twenty dollars, and for the second or each subsequent offense shall, upon conviction, be fined in any sum not less than ten nor more than fifty dollars."

The same provisions apply to each supervisor on the roads under his supervision and every roadmaster of any railroad.

Mr. Robinson not only offers to his patrons the best series of circus performances, the finest and most elaborately equipped hippodrome, and the largest and most comprehensive menagerie, but has added this year to his already superlative series of exhibitions the grand biblical spectacle of Solomon, his Temple, and the Queen of Sheba, unquestionably the finest scenic, processional, terpsichorean and lyric spectacle that has ever invited public patronage. Our citizens will soon have the opportunity of witnessing these grand exhibitions, for they will be in this city Saturday, July 15.

# She Was Pale as Death

Miss Cordelia Moore, of Malone, N. Y., until recently, has been a life-long invalid from palpitation of the heart and weakness of the blood.

Physicians were puzzled over her case, their most skillful efforts were tried without avail. The proverbial "change of climate" was advised, but the constant change wore upon her until, to quote her mother's words, "she became a living ghost." Miss Moore said: "Upon advice of a friend I began taking Dr. Williams' Pink Pills for Pale People and before the first box was used I noticed a great change. I began to regain my appetite and felt better generally. After finishing the first box I took six more. The effect was wonderful. I grew strong and gained in flesh. I never felt better in my life than I do now. I weigh more than ever before and I consider myself cured."

From the Gazette, Malone, N. Y.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, senility, neuritis, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion, and all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages. At all druggists, or direct from the Dr. Williams Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes \$2.50.

## AN AWFUL MISTAKE

Teaspoonful of Belladonna Administered to Man and Wife by a Nurse.

### HON. GEORGE W. JULIAN

Dies From the Effects of a Stroke of Apoplexy—Women and Children Injured in a Collision Between a Carriage and a Horse Wagon—Killed at a Railroad Crossing.

Indianapolis, July 8.—John Johnson and wife were each given a teaspoon of fluid extract of belladonna last evening by mistake, and Mr. Johnson's life is despaired of, but Mrs. Johnson may recover. Mr. Johnson is a well known brick manufacturer, 50 years old. He has been suffering for some time from general dropsy, but was improving. Mrs. Johnson has been suffering from an enlargement of an artery. After taking the poison, which was administered by a nurse, Mr. Johnson at once sank into a relaxed condition, but Mrs. Johnson was not so seriously affected; the former will probably die.

JESTER'S BROTHER Will Go to the Alleged Murderer's Relief.

Muncie, Ind., July 8.—Phyllander Jester of this city, brother of Alexander Jester, arrested in Oklahoma three weeks ago and taken to Missouri to answer for an alleged murder committed in 1871, yesterday made a statement of the case. A sister charges Alex with killing her sweetheart, while the two men were coming back to Indiana in wagons from the west. Phyllander states that he has investigated and finds that on the date of the alleged murder his sister was the wife of a man residing in Kansas City with a family of children. He declares the woman is of unsound mind and says he will go to his brother's assistance shortly.

### JULIAN DEAD

Succumbs to a Stroke of Apoplexy. Surrounded by His Family.

Indianapolis, July 8.—Hon. George W. Julian died yesterday at his home in Irvington from the result of a stroke of apoplexy on Thursday night. Mr. Julian never regained consciousness after the stroke and died apparently without pain, surrounded by his family and physicians. Mr. Julian was born near Centerville, Wayne county, in 1817. He cast his first vote for president in 1840, and in 1845 was elected a member of the legislature. He was elected to the Thirty-first congress, but was defeated for re-election in 1851. In 1852 the Free Soilers nominated him for vice president. In 1860 he was re-elected to congress and remained in office until his district was gerrymandered against him. In 1872 he espoused the cause of Greeley and in 1885 he was appointed surveyor general of Mexico by President Cleveland. This was the last public office he held.

The carriage was reduced to fragments and the occupants were thrown violently to the ground. Mrs. Stokes was picked up in an unconscious condition and transferred to her home. ## Hidden Beauty

In Egypt the custom is for Princesses to hide their beauty by covering the lower part of the face with a veil. In America the beauty of many of our women is hidden because of the weakness and sickness peculiar to the sex. If the Egyptian custom prevailed in this country, many sufferers would be glad to cover their premature wrinkles, their sunken cheeks, their unhealthy complexion, from the eyes of the world with the veil of the Orient.

## Spanish-American War Panorama.

Is one of the war books which is likely to be in continuous demand. It is a panoramic record of the triumph of Yankee Doodle. The eagle flaps his wings on every page, and "Old Glory" waves around and above every scene. Prominent officers connected with the war are here portrayed, as well as many of the "men behind the guns." Military life is pictured to the eye from recruiting to guard mount and skirmish line. Nor is the ludicrous omitted. The company cook receives the attention due to his importance; the mess is shown; cavalry scenes are given; the hospital arrangements are depicted; the heroines of the Red Cross service are displayed; street scenes in Havana, Santiago and elsewhere are unrolled, the new citizens or subjects (which are they?) of Uncle Sam, appear and disappear as the scenes are turned.

In a word, the gazette visits the new localities and sees the tumultuous new life, without the risk or expense of a sea voyage.

The Album is 5x8 inches, weighs 12 ounces, printed on finest coated paper.
